- ✚ Full time position
- ✚ Location - based in Cape Town

QUALIFICATIONS AND EXPERIENCE

Required

- A master's degree in an appropriate field including (*but not limited to*) Engineering, Finance, Development Finance and / or Development Studies.
- 8 -10 years' experience in infrastructure project finance, financial structuring, project planning and preparation in any relevant sector: energy, water, agriculture and / or climate.
- Must be comfortable working in quantitative environments, with a broader interest in strategy, social issues and development.
- A good understanding of the political economy of African countries and the economic dimension of infrastructure financing and development planning.
- Established regional networks in climate responsiveness, infrastructure investment and or climate investment, particularly in Africa, and exposure to dealing with funders.
- Experience in managing large complex project to deliver outstanding products to clients.
- Ability to engage clients at a range of levels, including senior bureaucrats and politicians.
- Desire to grow as a sector expert with continental / global recognition.
- Proven experience in leading and managing a team.
- A demonstrable track-record of excellence and success in business development.
- Experience in acquiring new work and compiling strong proposals / tenders.

Preferred

- A keen interest and previous exposure to infrastructure investment, infrastructure project planning, and project preparation in developing countries, particularly in Africa.
- Exposure to multilateral development institutions or development finance institutions will be an added advantage.
- Fluency in French or Portuguese.

KEY SKILLS AND ATTRIBUTES

This role calls for several specific skills and characteristics in the candidate, including: -

- Strong financial acumen and the ability to interpret and apply financial information.
- Numerical excellence and a good understanding of best practices in financial project planning.
- Comfortable with strategic thinking, including the ability to draw linkages between and observe implications of the evidence available, to understand what the information suggests or points to.
- A very strong ability to think on one's feet, and process large amounts of information as you are exposed to it.
- An extremely good writer with proven and exceptional writing skills of international caliber.
- A team player who is productive working in a collaborative, multi-disciplinary environment.
- Self-motivated, self-driven, with the ability to work independently and deliver tasks entirely at the level of quality expected, with minimal supervision or guidance.
- Positively disposed towards dynamism, comfortable with a fluid and constantly changing environment, including changing directions related to work being done.
- Ability to clearly break down and explain a complex topic verbally and in writing, and an ability to listen and respond to input and factor in diverse perspectives in real time.
- Equipped with rigorous research skills, including familiarity with research methods and referencing / citation methods.
- Must have extremely high attention to detail.
- Effective communication and presentation capabilities.
- An energetic problem-solver, who is open-minded with multi-perspective views on development finance, governance, systems, policies and broader developmental issues;
- Ability to excel in a fast-paced, dynamic, unpredictable work environment.
- Adaptive, quick-thinking, short lead times and a results-oriented mindset.
- Good time management, with the ability to meet task deadlines within time-frames and budget;
- Desire to contribute towards making the world a better place, and belief that a small group of committed and hard-working individuals can have a significant impact.

SALARY

- Commensurate with experience and qualifications.
